

2.7.1 Online Student Satisfaction Survey – December 2020

A summary response of the SSR conducted in December 2020 for BBA and BCOM(H) Sem III and V students is presented below:

Summary Report of Student Satisfaction Survey(Dec 2020)

1. How much of the syllabus was covered in the class?

306 responses

2. How well did the teachers prepare for the classes?

309 responses

3. How well were the teachers able to communicate?

309 responses

4. The teacher's approach to teaching can best be described as

309 responses

5. Fairness of the internal evaluation process by the teachers.

309 responses

6. Was your performance in assignments discussed with you?

308 responses

7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.

308 responses

8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth.

308 responses

9. The institution provides multiple opportunities to learn and grow.

309 responses

10. Teachers inform you about your expected competencies, course outcomes and programme outcomes.

309 responses

11. Your mentor does a necessary follow-up with an assigned task to you.

309 responses

12. The teachers illustrate the concepts through examples and applications.

309 responses

13. The teachers identify your strengths and encourage you with providing right level of challenges.

308 responses

14. Teachers are able to identify your weaknesses and help you to overcome them.

308 responses

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.

307 responses

16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.

307 responses

17. Teachers encourage you to participate in extracurricular activities.

305 responses

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

306 responses

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

308 responses

20. The overall quality of teaching-learning process in your institute is very good.

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

71 responses

Nothing.

None

Use white and black boards for explaining the question or a diagram , use of projectors will be of efficient use to us and so on .

Give more illustrations

Teachers should illustrate the concepts with the help of examples

Interactive modules

More internship

Assignment

More interaction

More practical approaches are required, should encourage students in extra curricular activities and train them rather than filtering students out on the basis of prior experience, more examples from real world, applications from real world are needed, making students participate in various activities rather than just sending students whom teachers know.

There are just too many students in online class to pay attention to.

No suggestions everything is fine

Should Be given more and better opportunity for internships or jobs

Everything is good there is no need to change anything

1. Counselling sessions for weaker students.

2. More effectiveness is needed for providing job offers through emails, for eg whatsapp groups should be made for interested students for any company and things should be clearly discussed there rather than just email communications .

3. Faculty is overall very experienced and dedicated towards teaching.

Nil

There can be more of a quiz round

According to my experience Teachers make so much efforts for us and they always there for us whenever we need any help.

1. Sometimes the teachers lack knowledge about the certain subject/topic. Moreover some teachers are just having a one sided communication just recites for the sake of completion of syllabus.

2. there is a lack of student teacher understanding sometimes .

3. Overall teaching is good.

1. Discussion of previous year paper should be more frequent.

2. More focus should be on practical application of concepts along with the theoretical

concepts by giving more examples.

College should open it is enough for us to stay at home

Our college must open it has been to long

Our college can be opened for students

From next month

1) There need to be some follow ups after giving assignment

2) Mostly assignment should be done in class only for the better interaction

No suggestions, our teachers put all of their efforts to make the lecture effective for us.

First of all institute should provide their staff a good broadband connection as there are several cases where either teachers are having internet issues or very poor audio/video quality. Second would be that staff should be trained how to conduct and operate online classes through the required app which half of them fails.

1) Giving more real life examples to help the students understand more effectively.

2) More questioning the students about topics already taught in the class.

3) Simplifying the textbook content by teachers so that each and every child understands the topics clearly.

1: try to do more practical's in class

1. Students should be provided with more opportunities to intern and gain first hand experience of the business world.

2. There should be a wide array of Placement opportunities for students who wish to work after graduation

3. Teachers should help students more with soft skills

They should focus more on giving practical knowledge rather than just theoretical knowledge.

They should also encourage students to participate in extra curricular activities.

Teachers should keep the students well informed about everything. Some teachers don't even respond to our queries.

There should be interactive classes to help students gain knowledge about the real world.

Teachers usually don't bother talking about things apart from the syllabus.

1. Focusing on improvement of knowledge and skills rather than just scoring marks

2. More interactive sessions

3. Smaller batch size

1. More course related books to be provided by book bank.

1.) Overall teachers did their best except in 1-2 subjects .

2.) Practical subjects should be taught seriously like other main subject because I think computer based practical subject have also equivalent use like other subjects in corporate world.

More extra classes , more quiz

We want more internships and placement opportunities

There should be strong coordination between teachers and administration, because it does not feel that there is coordination for example we students are saying that we need books to study, books shall be provided at the beginning of the sem and we get the books before 1 month of exam and whenever there are any notice that are issued by university it shall also cleared immediately.

While there is online class evaluating the learning process is hard but in some class we just cant hear the voice of teacher those who give class other than zoom. They didnt even complete the whole syllabus

As soon govt give guidelines to open school there should be immediate effect to this because overall online classes are 40% effective.

Revision classes shall be increased and doubt session shall be made more effective by giving for examples in practical

Teachers should also relate the subject with current affairs.

Sports should also be promoted in the institution.

More activities related to the subjects,

Should focus more on Practical skills

1) teachers should communicate with students properly

2) students feedback after class

3) proper attention to each and every student

More effective online classes, completion of syllabus properly and better study material to be provided at the right time

Nothing special

Nothing

Teacher gave their best in teaching us

No

No suggestions right now. Everything is fine.

The teachers, their skills and knowledge are outstanding , the methods are also good but sometimes the control may get lose as more active participation by everyone would be nice.

Much friendly interactive, solve the doubt at the moment,

1. Majority of teachers have great teaching and communicating skills, they use real life example to explain the topics but there are some teachers who sometimes don't even know about the topics they are preaching or it might be because of online mode of teaching or lack of explanatory skills.

Teachers should relate topics taught in the subjects with real life examples.

There should also be occasional general discussions in the class about topics related to businesses, politics, sports etc which would make the class more interesting and engaging for the students.

More club formations

Providing more opportunities for practical learning experience

Focusing on providing knowledge regarding technical skills

No suggestion

1. Some teachers don't even know how to teach properly they just come read and go.
2. There is very little interactive classes
3. HEFTY FEES IS CHARGED WITHOUT PROVIDING ANY SATISFACTORY FACILITIES, ITS NOT POST LOCKDOWN BEFORE ALSO FACILITIES NEVER DID THE JUSTICE TO THE HUGE AMOUNT TAKEN FROM US

offline teaching is more effective than online classes

I have only one suggestion from my side that some teacher teach in only English language..it would be better if you teach with mix hindi and english i.e, Hinglish.. because you don't know what is the background of the student.

All good

I have no trust this college my life is spoiled

Using the more student interactive approach.

Not only focus on bookish learning and syllabus completion but also focus on what students exactly need.

To provide with all the study materials and other instructions with utmost clarity.

Improve teaching style

Observe every student

Be frank with students

Give students recording of video lectures

Teachers should focus on every student and understand their weak points.

Teachers should be more polite while teaching.

Teaching in hindi and english combined would be appreciated

And please one assignment at a time.

Please teach us at a fast pace.(some of em are really slow)

Please make us write notes while teaching.

More examples please

Thank you

More practical

i) should focus more on moral and ethical values more

ii) Should include more students from diverse economic background.

No need for improvement

1. More activity based learning.

2. More interactions.

3. More of group activities.

Teaching in our marketing management was very poor didn't understand any thing and take too much time to explain any topics

I don't have any issues with the faculty or thier teaching style. The thing is that i haven't heard of a institute like this which doesn't give any facilities whether it is AC or water coolers they are installed but doesn't work . And yeah they charge extra fees of which they don't give proper notice.

Neutral

Not just the bookish things but practical industrial knowledge should be provided.

1. Work on student weakness .
