																								Teachers should be more frank with the students so that we can share our weaknesses and they can probably provide a solution to it. There should be trips planned for every semester students so that we can have a break and enjoy with the faculties too and therefore can study properly.

Better interaction with students

Give extra attendance to students for those who are doing another course side by side

- 1. Better communication
- 2. Better sources
- 3. Better time table
- 1.Clearing doubts

More extracurricular activities

There should be more

- 1. more presentation based study
- 2. Practical based study should be done
- 3.

No

Nice college

- 1) Always teaching after the end, ask students if there are doubts or not. And make random Student stand and ask him/her questions about the topic covered.
- 2) After teaching the concept make random Student come and asked to explain that topic on board.
- 3) Always try to engage with students while explaining topic like to connect that topic to students 's interest so student will become interested and their grasping capacity will increase even more and try to always have a little laugh with students before explaining topic so all students 'engagement will increase and will have no problem while asking doubt and will be able to understand that topic more.

Faculty is very good. They always support us to a great extent. We always feel free to connect with them.

I don't have any idea to tell but teacher should communicate to children and guide them According to their swot

Understandable language

- 1. Updation of the syllabus as 70% of it is very simple.
- 2. Some teachers need to be tested on their knowledge.
- 3.CTs to be taken with one day breaks in between as the stress to study and give another exam next day is alot and messes up sleeping habits which messes up everything else.

The

No suggestions as the learning experience is good at extent.

I have struggled to find an internship of my interest for my summer training. The mails sent by college for internships, they have no responses and CC used to say you have to find on your own.

My parents starts thinking that at the time of placement same support we'll get.

Very good. Teachers are very cooperative and understanding

Use of real life examples.

There should be some leniency for attendance.

Teachers should elaborate more rather than just reading from slides.

Good practical knowlegde

Good theoretical knowlegde

More personality development based programmes

..

Provide more internship related opportunities Extra curricular activities should be encouraged more

Very good overall learning in soft skills and knowledge about the subjects

Some industrial visits

- 1. Teachers should be more frank with the students so that we can share our weaknesses and they can probably provide a solution to it.
- 2. There should be trips planned for every semester students so that we can have a break and enjoy with the faculties too and therefore can study properly.

I think everything is good.

Probably the seating

- 1. Course should be completed in time
- 2. There should be thorough revision before exams.
- 3. Teachers gives negative motivation of attendance

Overall it is a good experience

All our teachers are upto the mark.

- 1. Increased break time
- 2. Fixed time table

I found it perfect so don't have any suggestions

The use smart board can be increased.

Sports facilities

- 1) teachers should make students make more notes. Not all but a few interesting and important topics.
- 2) fun learning activities should be more.
- 3) the one thing which Jims does better is handling societies well.
- 1) sufficient breaks 2) Guidance 3) QP should be random instead of 1st roll. no. as end students dont get a chance.

No suggestions. Good learning experience

All is well

No Suggestions as such

I dont know

- 1) less writing more understanding of the concepts
- 2) more interaction with the students during the class
- 3) less lectures in a day for better learning

More interaction with all Students

Students at 2nd year did not get the opportunity for industrial visit. I am looking forward for that in 3rd year but it must be in 2nd year

More industry visits.

Better timing for the shift.

Involving more group discussions.

All Good

Good communication, effective approach, advanced teaching techniques.

1.Assignment should be assigned once in a month. 2.Faculties should try to follow up with all types of the students in the class while teaching, so that most of them understand the topic.

Connect to students individually.

Consider new learning methods.

Utilize a variety of technology options.

- 1. Connect to students individually
- 2. Utilize a new variety of technology options

3. Provide collaboration and socialization opportunities

No suggestion

• • •

Noice

- 1. Scheduling counseling sessions for students to clear their doubts about their career
- 2. Organizing industrial visits
- 3. Providing overall assistance to students

Practical learning should provide in theoretical subject

- 1)The performance in assignments should be discussed
- 2)Connect to students Individually
- 3) Give more questions for practice to understand the concepts more easily and efficiently
- 1. there should be breaks between classes as continuous classes for 2 hrs is brutal. thats it.

The break timings could be extended.

It would be great if the timetable doesn't change mid day.

A little bit leniency in attendance to promote co curricular activities.

A better common room and good gym equipments.

The Lab classes should be done together not in groups.

Teach with example

Use the language which is easy to understand and retainable.

Can help in choosing streams and also preparation regarding comp exams

- 1.Industrial Visits should be arranged
- 2. Internship Oppprtunities should be promoted
- 1. All the Professor's should try to use real life examples to explain sophisticated topics.
- 2. Please change or improve canteen for upcoming batches.
- 3. Ponder over above points.
- -They can use new softwares for teaching.
- -They can record the offline classes also if the student is absent.

Try using white smart boards instead of chalk board. please give access of the same to teachers.

- 1. A lecture should be provided at least twice a week for societies for regular co-curricular activities.
- 2. Better organisation of placement cell required.
- 3. If possible, a field trip once in two months.

Everything is sorted

Ns

- 1. Internship fairs to be set up
- 2. Societies participation should be awarded attendence
- 3. Classes could be more interactive

I'm good with my college

- 1. Utilize a variety of technology options.
- 2. Connect to students individually.
- 3.things teachers can do to improve online teaching.

The more internship opportunities should be given.

The concepts should be explained in a more simplified and specific manner And students should be given more research work

- 1. More innovative teaching ideas should be adopted for better clearity of concepts.
- 2. Teachers should have enough knowledge regarding the subject, they are teaching.
- 3. Awareness regrading importance of participating in college cultural clubs and societies should be spread for freshers.

Improve sports facilities, include more fun activities in the learning process and assignments,more programmes and celebrations..

More students t oriented lesrning will provide much better skill enhancement of students in the institute

more workshops

Thee could be more practical or on-site experiences

Not required

More interactive

- 1. The concept of guest lectures should be encouraged more to give students a taste of real business world.
- 2. Faculties must be supportive of co curricular activities, as they contribute to the very foundation of one's personality and overall development.
- 3. Sports and fitness culture needs to be in the 'mainstream' of the institution.
