- ☐ To understand how time management plays an important role.
- To understand how a positive mindset shapes our personality.

Report: The 3rd episode of "The JIMS TALKS" a talk show wherein we focus on a comprehensive learning experience by inviting important figures such as entrepreneurs and many others so our students can engage and interact one-on-one with them and learn from their personal experiences and expertise in their respective fields.

For the first time ever, we had an actor and an IAS officer in JIMS Kalkaji. The session was so professionally done by the staff and the college. The mere presence of Mr. Abhishek Singh was powerful and tremendous. Being from a middle class family, he shared his experiences and a fair share of obstacles that he had to overcome in order to reach where he was now. Being from a middle-class family, he shared his experiences and a fair share of obstacles that he had to overcome in order to reach where he was now. Being an actor, an entrepreneur, and an IAS officer, he talked about work-life balance and encouraged students to not fear trying new things and being diligent about whatever they wanted to achieve.

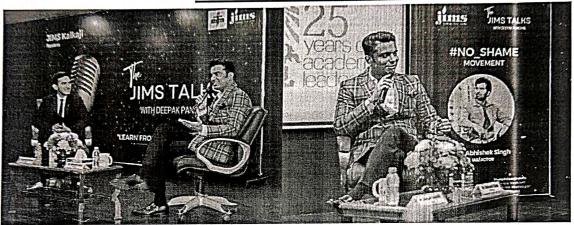

The session was packed with students willing to learn from his life experiences. He was swamped with questions during the questionnaire round as to how he cracked the UPSC exam and the stress he went

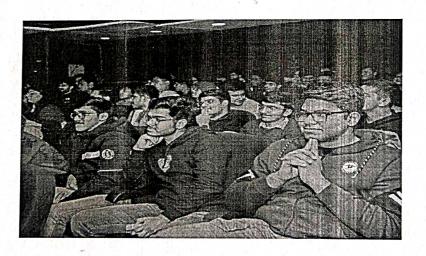

through during the preparations. There were also questions regarding the "generic stigma" around middle-class families. The session ended with his words of wisdom and motivation for the students.

Learning outcomes -

- ☐ Importance of discipline and time management in our daily life.
- ☐ The steps that should be taken by students to improve their lives towards a successful future.

- To understand how the different domains operate and co-ordinate with one another in a successful startup.

Report: The BBA & BCOM Department of JIMS Kalkaji took forward the initiative of "The JIMS TALKS" a talk show that focuses on learning about the journeys of eminent personalities such as entrepreneurs and many others so our students can engage and interact one-on-one with them. The second episode was held on December 19, 2022, and was handled exceptionally well by the faculty and students.

During the session, various viewpoints, ideas, and outlooks were presented, creating a diverse and dynamic learning experience for the students about the startup industry. Amit Malhotra, a guest speaker, captivated the audience with his personal stories and emphasised the importance of developing individual approaches to thinking, learning, and behaving in the workplace. His engaging delivery style not only inspired the students but also provided them with valuable insights and expertise in their respective fields.

Amit shared the challenges he faced while launching his own startup and how he overcame them, giving the attendees a comprehensive understanding of the various obstacles that can

arise during the entrepreneurial journey. Moreover, the participants were encouraged to ask questions related to entrepreneurship and the financial aspects of starting a business, further enriching their understanding of the startup ecosystem.
